SOFTWARE UPDATE.

INFORMATION.
Information

Congratulations on your choice of a BMW.

The better you are acquainted with your car, the easier you will find it is to handle. We would therefore like to offer you the following advice:

Please read the Owner's Handbook before setting out in your new BMW. Please also read the integrated Owner's Handbook in your vehicle. It contains important notes on how to operate the car, enabling you to derive maximum benefit from the technical advantages of your BMW. It also contains useful information which will help you to uphold both your BMW's operating safety and its full resale value.

This documentation provides you with information on the software update.

We wish you pleasurable, safe driving

Software update information

Contents

This document provides you with information on the software update.

The contents of the software update depend on the version of the software installed in your vehicle.

You can find detailed information on the software update and the devices supported in the description below.

One of the following versions will be installed depending on which vehicle you have:

- MV-110.4.10, TV-110.4.10
- MV-100.12.10, TV-110.4.10
- MV-10.13.10, TV-10.13.10

Conditions

The software update is available only for certain vehicles equipped with a USB audio interface.

Go to www.bmw.com/update or the compatibility matrix at www.bmw.com/bluetooth to find out whether your vehicle is supported.

You will find further information on the software update in the Owner's Handbook Navigation, Entertainment, Communication.

Installation

Installation of the software update requires agreement with the terms and conditions of use.

For further information, see www.bmw.com/update.

For the purposes of installation, save the software update file in the main directory of a USB device and connect the USB device to the USB audio interface on the centre arm rest.

In addition, read the information in the Owner's Handbook Navigation, Entertainment, Communication under Software Update.

Following installation of the software update, the new software version is displayed in the vehicle:

1. "Settings"
2. "Software update"
3. "Show current version"

Notes

Once the software has been updated, the vehicle must be switched off.

Data transferred from external devices are synchronised, if applicable.

Tracks or playlists played before the software update must be selected again.

This is also necessary when previous versions of the software are restored:

1. "Settings"
2. "Software update"
3. "Restore software"

Manual changes to music files might be deleted if the software is restored or updated by the service partner.

If the following menu item is not displayed correctly after the update, deactivate Bluetooth for a short time for the installation:

"ConnectedDrive"

Software update (MV-110.4.10, TV-110.4.10)

Contents

- Multimedia: improves device recognition with a Huawei phone.
Software update information
